Abscess, lung, percutaneous drainage of (case report), 153
Acidosis of low-glucose pleural effusions, 665
Adrenergic mediators, control of lung surfactant by, in rabbit, 879
Adult respiratory distress syndrome, long-term follow-up and bronchial reactivity testing in survivors of, 449
Aerosol, hypertonic saline, enhanced clearance of secretions from lung after administration of, 199
African zebrawood (*Microberlinia*) dust as cause of asthma (case report), 601
Air spaces, respiratory, internal surface area and number of, in elastase-induced emphysema in hamsters, 685
Airway(s)
  disease
    chronic obstructive, improvement of platelet survival time with oxygen in patients with, 255
    obstructive, relationship of host factors to pathogenesis of, 647
  effect of preferential deposition of histamine in, 485
  hyperreactivity and emotions, bronchoconstrictive suggestion in asthma as role for, 1029
  obstruction
    chronic, closing volume and natural history of (correspondence), 981
    at high altitude, diagnosis of, 1055
    upper
      during controlled ventilation caused by vocal cord closure (case report), 391
      isoflow volume curves in diagnosis of, 845
Allografts, lung, anti-lung antibodies associated with, 853
Alpha$_1$-antitrypsin
  deficiency in nonsmokers, 421
  interactions of neutrophil elastase, serum trypsin inhibitory activity, and smoking history as risk factors for COPD in patients with MM, MZ, and ZZ phenotypes for (correspondence), 811
  phenotype groups in community population, closing volume and flow volume abnormalities in (Note), 179
Altitude, high
  diagnosis of airway obstruction at, 1055
  excessive polycythemia of, treatment of, with respiratory stimulant drugs, 455
Alveolar
  hypoventilation, primary, treated with nocturnal electrophrenic respiration (case report), 165
  macrophages
    generation of neutrophil chemotactic factor by, in immunologic reactivity of lung, 15
    guinea pig, chemotactic activity of, 673
  membrane permeability, pulmonary, effects of endogenous and exogenous histamine on, 1063
  proteinosis, pulmonary, shunt fraction and lactic acid dehydrogenase concentration as aids to diagnosis of, 1059
Aminophylline, effect of, on ventilatory responses (correspondence), 1139
Amniotic fluid, fetal lung lamellar bodies in, 541
Anaphylaxis, inhibitory action of lidocaine in, 859
Antibodies
  anti-lung, associated with lung allografts, 853
  fungal complement-fixing (correspondence), 399
Antibody response, secondary, to killed influenza vaccine, long-term therapy with rifampin and (Note), 605
Antigen(s)
  5, *M. tuberculosis*, isolation by immunoabsorbent affinity chromatography and physicochemical characterization of, 533
  microbial, immunologic memory for, in lymphocytes obtained from bronchus mucosa, 513
Antitrypsin deficiency, intermediate, and COPD in Yugoslavia, 1039
Arteries, pulmonary and bronchial, treatment of massive hemoptysis by combined occlusion of (case report), 969
Asbestos exposure and mesothelioma (correspondence), 185
Aspergillosis. *See* Mycoses
Aspergillus fumigatus, serum IgE and IgG antibody activity against, as diagnostic aid in allergic bronchopulmonary aspergillosis, 917
Aspirates, transtracheal, bacteriology of expectorated sputum with quantitative culture and wash technique compared to, 1019
Asthma
  bronchoconstrictive suggestion in, as role for airways hyperreactivity and emotions, 1029
  caused by African zebrawood dust (case report), 601
  children with, comparative study of histamine and exercise challenges in, 911
  evaluation of role of immunotherapy in (editorial), 191
  exercise-induced, refractory period after, its duration and relation to the severity of exercise, 247

patients with
ability of, to detect added resistive loads, 71
health effects of ozone exposure in, 835
Baboon, effects of compensatory lung growth in irradiation-induced regional pulmonary fibrosis in, 1079
BCG, immunization of mice after airborne infection with various strains of, 103
Beryllium workers, reversible respiratory disease in, 1011
Biliary tract obstruction, granulomatous, caused by sarcoidosis (case report), 783
Blastomycosis. *See* Mycoses
Bleomycin
endotracheal, chronic interstitial pulmonary fibrosis produced in hamsters by, 289, 1099
increased elastin and collagen content in lungs of hamsters receiving intratracheal injection of, 299
Blood
arterial, effect of mixed venous oxygenation on, in COPD, 259
gas studies, arterial, during chronic interstitial pulmonary fibrosis produced in hamsters by endotracheal bleomycin, 289
mixed venous, noninvasive methods for measuring the Pco_2 of, 63
volume, capillary, and pulmonary membrane conductance, relationship of age to, 1069
Breath sounds, distribution of regional ventilation measured by, 657
Bronchial
obstruction, local, effect of, on gas exchange in dog, 85
reactivity testing and long-term follow-up of adult respiratory distress syndrome, 449
Bronchitis, chronic
relationship of host factors to pathogenesis of, 647
relationship of smoking history and pulmonary function tests to tracheal mucous velocity in nonsmokers, young smokers, ex-smokers, and patients with, 205
pulmonary, and systemic hemodynamic evolution in, 25
Cancer, lung
to operate or not? (correspondence), 185
reliability of gallium scan chest radiography compared with mediastinoscopy for evaluating mediastinal spread in, 415
staging of (editorial), 819
Carbon dioxide tension
arterial, graphic approach to assessing interrelationships among minute ventilation, ratio of physiologic dead space to tidal volume and, in patients on respirators (Note), 181
noninvasive method for measuring, of mixed venous blood, 63
Carbon monoxide
diffusing capacity, effect of body position, in asymptomatic smokers and nonsmokers, 1045
uptake studies during chronic interstitial pulmonary fibrosis produced in hamsters by endotracheal bleomycin, 289
Carcinoma. *See* Tumor(s)
Catheter, Swan-Ganz, effect of height of, on wedge pressure-left atrial pressure relationship in edema during positive-pressure ventilation, 721
Cell(s)
activity, enhanced helper, phytohemagglutinin response of lymphocyte fractions isolated by velocity sedimentation and, in sarcoidosis, 519
bronchoalveolar, obtained from guinea pigs by lung lavage, effects of corticosteroid administration on, 893
-mediated immune responses in sarcoidosis, 55
Chest
radiography, gallium scan, reliability of, compared with mediastinoscopy for evaluating mediastinal spread in lung cancer, 415
symptoms, prevalence of, and pi phenotypes in workers employed in dusty industries, 239
Chicken, ultrastructure of mucociliary interface in nasal mucosa of, 327
Children
asthmatic, comparative study of histamine and exercise challenges in, 911
with upper respiratory infections, spirometric changes in, 47
Chromatography
high pressure liquid, and homogeneous enzyme immunoassay, comparison of, for determination of theophylline concentration in serum (Note), 1135
immunoabsorbent affinity, isolation by, and physicochemical characterization of *M. tuberculosis* antigen 5, 533
Cigarettes. *See* Smoking
Closing volume
and flow volume abnormalities in $alpha_1$-antitrypsin phenotype groups in community population (Note), 179
and natural history of chronic airway obstruction (correspondence), 981
Clubbing, digital, disease severity, and serum prostaglandins $F_{2\alpha}$ and E concentrations, relationships among, in cystic fibrosis, 639
Coccidioidomycosis. *See* Mycoses
Collagen
and elastin content, increased, in lungs of hamsters receiving intratracheal injection of bleomycin, 299
lung, fate of newly synthesized, after endotra-

cheal administration of ^{14}C-proline to hamster, 281
CORRESPONDENCE
Asbestos exposure and mesothelioma, 185
Closing volume and natural history of chronic airway obstruction, 981
Effect of aminophylline on ventilatory responses in normal man, 1139
Fungal complement-fixing antibodies, 399
Interactions of neutrophil elastase, serum trypsin inhibitory activity, and smoking history as risk factors for COPD in patients with MM, MZ, and ZZ phenotypes for alpha$_1$-antitrypsin, 811

Tuberculosis in the foreign born, 185
Corticosteroid administration, effects of, on bronchoalveolar cells obtained from guinea pigs by lung lavage, 893
Cushing's syndrome, pulmonary tumorlets associated with (case report), 799
Cystic fibrosis
effects of sputum from patients with, on activity *in vitro* of five antimicrobial drugs on *P. aeruginosa* (Note), 176
patients, relationships among digital clubbing, disease severity, and serum protaglandins $F_{2\alpha}$ and E concentrations, in, 639
treatment and prognosis of massive hemoptysis in, 825
Dead space, ratio of physiologic, to tidal volume, graphic approach to assessing interrelationships among minute ventilation, arterial CO_2 tension, and, in patients on respirators (Note), 181
Dehydrogenase concentration, lactic acid, and shunt fraction as aids to diagnosis in pulmonary alveolar proteinosis, 1059
Deoxyribonucleic acid synthesis in lung cells during compensatory lung growth after pneumonectomy, 307
Diabetes, juvenile-onset, lung elasticity in (correspondence), 811
Diffusing capacity, CO, effect of body position on, in asymptomatic smokers and nonsmokers, 1045
Dog(s)
effect of local bronchial obstruction on gas exchange in, 85
examination of microbiologic flora of lung of dog, 501
Drugs
antimicrobial
effects of sputum from patients with cystic fibrosis on activity *in vitro* of five, on *P. aeruginosa* (Note), 176
their value in treatment of respiratory infections (editorial), 1
new antimicrobial, and their value in treatment of respiratory infections (correspondence), 1139
respiratory stimulant, treatment of excessive polycythemia of high altitude with, 455
Dust, African zebrawood, as cause of asthma (case report), 601
Ear oximetry in clinical practice (Note), 173
Edema, effect of Swan-Ganz catheter height on wedge pressure-left atrial pressure relationship in, during positive-pressure ventilation, 721
EDITORIALS
American Lung Association and its medical section, a fresh outlook, 615
Evaluation of role of immunotherapy in asthma, 191

Effusions
exudative pleural, distribution of lymphocyte subpopulations in patients with, 507
low-glucose pleural, acidosis of, 665
pleural
associated with primary lymphedema (case report), 595
radiographic features of, in pulmonary embolism, 829
Elastase
intravenous, physiologic and morphologic observations of effects of, on lung, 97
neutrophil, serum trypsin inhibitory activity, and smoking history, interactions of, as risk factors for COPD in patients with MM, MZ, and ZZ phenotypes for alpha$_1$-antitrypsin (correspondence), 811
release of, from polymorphonuclear leukocytes by cigarette smoke condensate *in vitro*, 317
Elasticity, lung, in juvenile-onset diabetes (correspondence), 811
Elastin and collagen content, increased, in lungs of hamsters receiving intratracheal injection of bleomycin, 299

Embolism, pulmonary, radiographic features of pleural effusions in, 829
